Dear Patent officer:

Enclosed please check a copy of sequence list and a disk contains the sequence list. Both are the same sequence.

Some thing that confused us is that our invention created much general principle. The principle not limited to this sequence only. Somehow, this sequence list looks like that it limited our invention to this sequence only.

For many reasons about our invention, we found that Zhifang Zhu is able to represent all of us the best. Please contact with Zhifang Zhu at
